Re: Electrolux Home Products, 601 E. Central Avenue, Jefferson, Iowa 50129

Dear Ms. Hutchinson,

Electrolux received your letter regarding the company's Jefferson, Iowa facility on October 13, 2011. We also received Ms. Slugantz's RCRA Section 3007 Request for Information that same day.

As suggested in your letter, Electrolux would appreciate the opportunity to meet with EPA Region 7 to discuss this matter and would be glad to travel to Kansas City for that purpose. Given the nature of the issues involved, Electrolux respectfully requests that Ms. Slugantz and the Division Director, Rebecca Weber, attend this meeting, along with any other member of your team that you think would be appropriate. By requesting this meeting, Electrolux does not concede that the Jefferson facility is subject to RCRA's requirements other than those applicable to small quantity generators.

On our prior call, you mentioned that Maytag and many other manufacturers are performing RCRA corrective actions in Iowa under EPA Region 7's direction based solely on their status as a RCRA small quantity generator. In advance of our meeting, we would appreciate it if you would provide us the names and addresses of those facility locations, as well as copies of the RCRA administrative orders on consent or other agreements that EPA has in place for these activities.

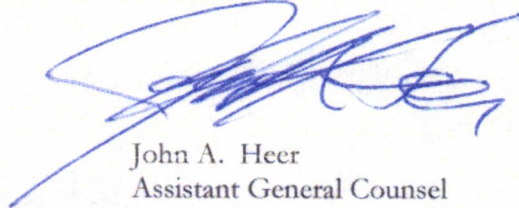

Finally, with respect to the RFI and the 30-day deadline set in Ms. Slugantz's letter, Electrolux respectfully requests that the deadline be tolled until such time as this meeting has occurred.

I look forward to hearing from you about dates you and your colleagues are available for a meeting to discuss these issues.

Sincerely,

John A. Heer
Assistant General Counsel
